Personalised Screening Instructions

Welcome! I'd suggest that you allow approximately one hour to complete the forms required for your personalised screening (or you can complete some stages and return later). The more detail you provide, the more accurately I can carry out my analysis. Four forms are required in total. Please ensure you email me at info@autism-assessment-online.com when you have completed your forms so that I can analyse them. And please let me know what email address you used to complete your forms. Any questions, don't hesitate to contact me!

1	Please complete the AQ-50, RAADS-R and CAT-Q by clicking **here** (these are available on the website, so if you have already completed them, there's no need to repeat).
2	In addition to the screening tests, you are asked to complete a more detailed form using the link provided below. This form relies more on "open" questions, and allows you to go into more depth with your answers. Please access your form **here**.
3	Allow a week *from the point that you informed me of completion of your form and screening tests* to receive your personalised report. Please check your spam mail if you have not received your report within a week.
4	Please note, it's crucial that you email me when you have completed all 4 forms (including 3 screening tests and the more in-depth form) so that I can analyse your results!
5	If you have any questions for me, following your report, please email info@autism-assessment-online.com If you would like to book an appointment with me, the cost of your personalised screening will be discounted against your appointment.
